

## Redmine - Feature #7080

### Alternate default activity in time logging

2010-12-08 18:17 - Will Vanderpol

| We have a general project called Administration, which of the 3 types of activities we have (Design, Development, Support) only Support is enabled. Development is the default set in the Redmine Settings.<br>Would it be possible to have Redmine select Support when logging time in this case, rather than forcing us to drop it down to select the only activity available? |                    |                        |               |

| Related to Redmine - Feature #29286: Add default spent time activity per role  |                    |                        | <b>Closed</b> |

#### History

##### #1 - 2010-12-08 18:18 - Jean-Philippe Lang

- Tracker changed from Defect to Feature

##### #2 - 2011-04-15 23:01 - Will Vanderpol

Maybe a better way of implementing this feature would be to have a per project default activity setting. Different type of projects, admin, hardware or software have different types of activities.

##### #3 - 2011-08-09 23:30 - Dan Klassen

A helpful feature would be to allow each tracker to have a default activity assigned to it. Unless I'm missing something I haven't seen a way to do this through the interface.

##### #4 - 2011-08-15 22:50 - Sergey Zagorodnykh

For easy to use PM need to customize relationships between Types of Trackers and Activities which can be related to them.  
For Example: Support tracker can have next activities: Consulting, Discussion, Configure, Install, Wiki updating,...

##### #5 - 2013-01-09 10:47 - Be Fio

Some news here?

I'm wondering if there is a way to show activities (while time tracking) filtered by tracker.

Scenario:

trackers:

1. database management
2. analysis and coordination

time tracking activities:

1. database creation
2. database updating
3. cost estimation
4. meeting
5. research

I want that, while I'm tracking time for database management, only 1 and 2 activities are shown (and 1 is selected by default); while I'm tracking time for analysis and coordination I want to see only 3 4 5 (with 3 selected by default).

##### #6 - 2015-02-25 11:21 - Marco Descher

Tracker specific activities would definitely be an interesting option. +1

**#7 - 2017-12-02 22:19 - Eva Encabo**

+1 we need this feature

**#8 - 2018-08-07 06:33 - Marius BĂLTEANU**

- *Related to Feature #29286: Add default spent time activity per role added*

**#9 - 2018-08-07 06:34 - Marius BĂLTEANU**

I've proposed a default activity per role in [#29286](#).
