

Redmine - Feature #7244

Default query per project

2011-01-07 11:33 - Robert Gruendler

Resolution: Duplicate	
Description	
<p>We use a lot of subprojects in our redmine setup and some of our users find it confusing to see all issues of the subprojects in the parent project too by default. Would be nice if one could make a custom query the "default" custom query for a project, so it would be possible to only show the parent issues when users click on the "issues" tab.</p>

History

#1 - 2015-04-14 15:19 - Go MAEDA

- Status changed from New to Closed
- Resolution set to Duplicate

#7360 seems to be almost identical with this issue and that issue has more discussion.
I am closing this as duplicate.
