

Redmine - Defect #7385

Error when viewing an issue which was related to a deleted subtask

2011-01-20 11:06 - Ngewi Fet

Status:	Closed	Start date:	2011-01-20
Priority:	Normal	Due date:	
Assignee:	Jean-Philippe Lang	% Done:	0%
Category:	Issues	Estimated time:	0.00 hour
Target version:	1.1.1	Affected version:	1.1.0
Resolution:	Fixed		

Description

I get this bug against the current Redmine version 1.1.0.stable.4732
This bug is reproducible with the following steps:

1. Create an issue A
2. Create issue B and make it a subtask of A
3. Create issue C and add B as a related issue
4. Delete A (Redmine normally also deletes subtasks)
5. Now try to view issue C and you get Redmine internal error.

Expected:
You should be able to view the issue with no problems

Actual Result:
You get an internal Error 500

Note:

- Issue C is still accessible through the Edit action.
- Deleting an issue with a simple issue relation doesn't trigger this.

Error Log:

```
Processing IssuesController#show (for 10.121.44.164 at 2011-01-19 23:21:51) [GET]

Associated revisions

Revision 4735 - 2011-01-22 12:46 - Jean-Philippe Lang

Fixed: subtasks are deleted (not destroyed) when destroying parent issue (#7385).

Revision 4741 - 2011-01-22 14:28 - Jean-Philippe Lang

Moves relations fetching from views to the controller and skip invalid relations (#7385).

History

#1 - 2011-01-22 14:30 - Jean-Philippe Lang

- Status changed from *New* to *Resolved*

- Target version set to 1.1.1

- Resolution set to *Fixed*

The 500 error is fixed in [r4741](#) which will be merged into 1.1-stable for 1.1.1.

The root problem that caused the relation not to be deleted is fixed in [r4735](#).

#2 - 2011-01-30 07:09 - Jean-Philippe Lang

- Subject changed from *Redmine crashes when viewing an issue which was related to a deleted issue (which had a parent task)* to *Error when viewing an issue which was related to a deleted subtask*

- Status changed from *Resolved* to *Closed*

[r4741](#) merged in 1.1-stable.
