Redmine - Defect #7421

no email sent with 'Notifiy for any event on the selected projects only'

2011-01-24 11:02 - Arnaud Martel

Status:	Closed		**Start date:**	2011-01-24
Priority:	Normal		**Due date:**	
Assignee:			**% Done:**	0%
Category:	Email notifications		**Estimated time:**	0.00 hour
Target version:	1.1.1			
Resolution:	Fixed		**Affected version:**	1.1.0

Description

I just upgraded from trunk (r4744) and I have trouble with notification:

How to reproduce:

- In my account:
    - I selected "For any event on the selected projects only"
    - I checked project A and project B
- Another user created an issue in project **C** and assigned it to me
  => No notification is sent to me
- Another user created an issue in project **B** and assigned it to me
  => A notification is sent to me

According to "my account, Email notifications", I should have received an email ("For unselected projects, you will only receive notifications about things you watch or you're involved in (eg. issues you're the author or assignee)."

A possible solution (not sure but...):
When looking at app/models/user.rb, there is a piece of code:

```
# Utility method to help check if a user should be notified about an
# event.
#
# TODO: only supports Issue events currently
def notify_about?(object)
  case mail_notification
  when 'all'
    true
  when 'selected'
    # Handled by the Project
  when 'none'
    false
  when 'only_my_events'
    if object.is_a?(Issue) && (object.author == self || object.assigned_to == self)
      true
    else
      false
    end
```

From what I understand, the "when 'selected'" case doesn't manage the unselected projects so I changed it to:

```
  when 'selected'
    # Handled by the Project
    if object.is_a?(Issue) && (object.author == self || object.assigned_to == self)
      true
    end
```

And it seems to solve my problem (ie: notifications are working again...)

Kind regards,
Arnaud

Associated revisions

Revision 4761 - 2011-01-24 18:28 - Jean-Philippe Lang

Fixed: no email sent with 'Notifiy for any event on the selected projects only' (#7421).

History

#1 - 2011-01-24 18:30 - Jean-Philippe Lang

- Status changed from New to Resolved

- Target version set to 1.1.1

- Affected version (unused) changed from devel to 1.1.0

- Resolution set to Fixed

- Affected version set to 1.1.0

This behaviour was broken by some refactoring (r4218). Fixed and tests added in r4761.

#2 - 2011-01-30 07:02 - Jean-Philippe Lang

- Status changed from Resolved to Closed

Merged in 1.1-stable.
