

## Redmine - Defect #7430

### Log time page broken after 1.1 update

2011-01-24 21:34 - Osama Sayed

<b>Status:</b>	Closed	<b>Start date:</b>	2011-01-24
<b>Priority:</b>	Normal	<b>Due date:</b>	
<b>Assignee:</b>		<b>% Done:</b>	0%
<b>Category:</b>	Time tracking	<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>		<b>Affected version:</b>	1.1.0
<b>Resolution:</b>	Invalid		
<b>Description</b> When I try to access this link after upgrading: <a href="https://redmine.coformatique.com/issues/###/time_entries/###/edit">https://redmine.coformatique.com/issues/###/time_entries/###/edit</a> I get a 404 error. Here's the log:  <pre>Processing IssuesController#show (for xx.xx.xx.xx at 2011-01-24 21:31:58) [GET]   Parameters: {"action"=&gt;"show", "id"=&gt;"###", "controller"=&gt;"issues"} Rendering template within layouts/base Rendering issues/show.rhtml Completed in 437ms (View: 305, DB: 72)   200 OK</pre>			

#### History

##### #1 - 2011-01-25 18:18 - Jean-Philippe Lang

When I try to access this link after upgrading

Where do you see this link?

##### #2 - 2011-01-25 18:20 - Osama Sayed

In the Log time link within any issue! Of course you would need to substitute the ### with the issue number.

##### #3 - 2011-01-26 01:54 - innate ideas

I don't experience this issue on Redmine 1.1.0 upgraded from 1.0.4 running on SUSE Linux Enterprise Server 10sp3. Using default theme.

##### #4 - 2011-01-26 09:10 - Michael Tuschik

Hi there,

we get a simmilar error when accessing the timelog of an issue:

```
Processing TimelogController#details (for 10.193.2.16 at 2011-01-26 09:03:24) [GET]
  Parameters: {"project_id"=>"caruso-dev-aep", "issue_id"=>"265", "action"=>"details", "controller"=>"timelog"
}
Rendering template within layouts/base
Rendering common/error (403)
Filter chain halted as [:authorize] rendered_or_redirected.
Completed in 21ms (View: 16, DB: 1) | 403 Forbidden [http://our.redmine.host/projects/my-project/timelog/details?issue_id=265]
```

All time tracking privileges are granted to my user account.  
Any hints on this?

Thanks  
Michael

##### #5 - 2011-01-26 09:37 - Jarek Potiuk

I have very similiar problem. The log tells:

```
ctionController::RoutingError (No route matches "/plugin_assets/timesheet_plugin/javascripts/timesheet.js" with {:method=>:get}):
```

```

Hi,

we've found out, that this might be a problem with one of our installed plugins. There is an URL mismatch between the usual URL for time entries `.../issues/###/time_entries` and the URL, which our Redmine generates: `.../projects/my-project/timelog/details?issue_id=###`. So we have to look, where this come from and it doesn't belong to this ticket. Sorry for the spam.

Michael

Hi,

we've found out, that this might be a problem with one of our installed plugins. There is an URL mismatch between the usual URL for time entries `.../issues/###/time_entries` and the URL, which our Redmine generates: `.../projects/my-project/timelog/details?issue_id=###`. So we have to look, where this come from and it doesn't belong to this ticket. Sorry for the spam.

Michael

Update:

Source of our problem is the advanced roadmap plugin, which overrides the issues view. I got hints on this due to defect [#6754](#)  
Maybe this helps solving this issue.

Michael

#### #8 - 2011-04-04 15:55 - Peter Englmaier

We also see this issue in 1.1.2.stale.5032 (MySQL).

The problem is, that the link behind the 'Log Time' button is:

```
https://my-redmine.site/issues/396/time_entries/396/edit
```

but it should be:

```
https://my-redmine.site/issues/396/time_entries/new
```

#### #9 - 2011-04-04 16:23 - Etienne Massip

With no plugin ?

#### #10 - 2011-04-07 11:30 - Peter Englmaier

I have a few plugins:

- redmine\_changeauthor
- redmine\_xls\_export

Moving the redmine\_changeauthor out of the vendor/plugin directory and restarting the server fixes the problem. Hmmm, I need to check if there is an update for the changeauthor plugin.

#### #11 - 2011-04-07 11:44 - Peter Englmaier

The plugin has no new version, but the following change in the plugin fixes the problem for me:

```
# diff -u redmine_changeauthor/app/views/issues/_action_menu.rhtml-orig redmine_changeauthor/app/views/issues/_action_menu.rhtml
--- redmine_changeauthor/app/views/issues/_action_menu.rhtml-orig      2011-02-21 15:29:11.000000000 +0100
+++ redmine_changeauthor/app/views/issues/_action_menu.rhtml      2011-04-07 11:36:26.000000000 +0200
@@ -3,7 +3,7 @@
 <div class="contextual">
 <%= link_to(l(:button_authorchange), {:controller => 'changeauthor', :action => 'index', :issue_id => @issue
 }, :class => 'icon icon-close redmine-authorchange-button') %>
 <%= link_to_if_authorized(l(:button_update), {:controller => 'issues', :action => 'edit', :id => @issue }, :o
 nclick => 'showAndScrollTo("update", "notes"); return false;', :class => 'icon icon-edit', :accesskey => acces
 skey(:edit)) %>
-<%= link_to_if_authorized l(:button_log_time), {:controller => 'timelog', :action => 'edit', :issue_id => @iss
 ue}, :class => 'icon icon-time-add' %>
+<%= link_to_if_authorized l(:button_log_time), {:controller => 'timelog', :action => 'new', :issue_id => @iss
 ue}, :class => 'icon icon-time-add' %>
 <% replace_watcher ||= 'watcher' %>
 <%= watcher_tag(@issue, User.current, {:id => replace_watcher, :replace => ['watcher','watcher2']}) %>
 <%= link_to_if_authorized l(:button_duplicate), {:controller => 'issues', :action => 'new', :project_id => @p
 roject, :copy_from => @issue }, :class => 'icon icon-duplicate' %>
```

Can someone coordinate the change with the plugin author? Or is change\_author going to be a standard feature in the next redmine version?

#### #12 - 2011-04-07 14:46 - Etienne Massip

- *Status changed from New to Closed*
- *Resolution set to Invalid*

I close the issue as it's a plugin issue.

The [plugin page](#) is telling that the plugin is compatible with 1.1.x. Moreover, there are some recent commits on the plugin Github page (you'll find the link on the plugin description page).
