#2 - 2011-01-28 08:45 - Marc Krebs

As i could see, the error comes from database where column "role" is not submitted during insert.
Does anyone knows where this field comes from an why it is null?

#3 - 2011-01-28 10:26 - Etienne Massip

Table time_entries has no 'role' column in redmine db, are you using some plugin relative to roles ?

#4 - 2011-01-28 13:27 - Marc Krebs

We have installed some earlier before. But we removed it.
Can we manually delete this table column?

#5 - 2011-01-28 14:19 - Etienne Massip

- Status changed from New to Resolved

I suppose you could as it is not used by redmine.

Hope that it will resolve your problem.

#6 - 2011-01-28 14:25 - Miguel Seuster

Hello,

we have resolved the problem. There were some old tables in the database.

Thanks
