Description

Seeing things like this (project overview tab):

```
Bug: {{count}} open / {{total}}
Feature: {{count}} open / {{total}}
Support: 1 open / {{total}}
Task: 0 open / {{total}}
```

This appears throughout the app, the worrying thing is that we're unable to send notification emails, test email fails with:

```
An error occurred while sending mail ({{value}})
```

Setup details:

Using Redmine 1.1.0, with Postgres 8.4 on a Ubuntu x86_64 (VMWare) after generating an empty dB.

```
sudo RAILS_ENV=production script/about

Any advice gratefully received as I pushed this into production thinking this issue wasn't that serious and didn't test the email notification first   :-/

Isn't it a duplicate of [#7013](#7013) ?

Do you have the required 0.4.2 version of the i18n gem ?

#2 - 2011-02-04 09:55 - Caspar MacRae

Yes, it is thanks Etienne, I did search issues, don't know how I missed the others.

For reference, as per comment on [#7013](#) you must ensure **only** version 4.2 is installed:

```
#gem install i18n -v=0.4.2
#gem uninstall i18n -v=0.5.0
```

I have read the [#7013](#) and this issue also and this bug is still occurring. I have the following gems

```
actionmailer (2.3.4)
actionpack (2.3.4)
activerecord (2.3.4)
activeresource (2.3.4)
activesupport (2.3.4)
daemon_controller (0.2.6)
fastthread (1.0.7)
file-tail (1.0.5)
i18n (0.4.2) #i don't have 0.5.0 and i can't install an earlier version
mysql (2.8.1)
passenger (3.0.4)
rack (1.2.1, 1.0.1)
rails (2.3.4)
rake (0.8.7)
spruz (0.2.5)
```

and the following configuration:

```
Ruby version            1.8.7 (i486-linux)
RubyGems version        1.4.2
Rack version            1.0
Rails version           2.3.4
Active Record version   2.3.4
Active Resource version 2.3.4
Action Mailer version   2.3.4
Active Support version  2.3.4
Application root        /srv/redmine-1.1
Environment             production
Database adapter        mysql
Database schema version 20101114115359
```

1.1.0 does not support Rails 2.3.4. Please consider upgrading to 2.3.5.

#7 - 2011-03-16 22:44 - Jason Meinzer

I just upgraded to 1.1.2.stable.5157 to try to fix this problem but it did not help. I am still seeing these types of things everywhere:

```
Defect: %{count} open / %{total}
Feature: 1 open / %{total}
```

I have only 0.4.2 of i18n installed.

Did you restart your server ?

Yes.

Redmine 1.1 is too old and this issue can be resolved by installing latest Redmine.
I close this issue.
