<b>Description</b>	
<p>Thanks very much for your great software! I've been using it for awhile now and really enjoy all its features. I have a request if you are able to add it in: I wasn't able to find how to edit issues in the latest version (1.1.1) until my colleague googled for the answer and found that you do it by clicking on "More" in the "Change properties (More)" link to expand the fieldset that contains the existing ticket properties. I suggest either leaving this expanded or making the text more obvious what will happen when you click on "More".</p> <p>Cheers, Kate</p>

- *Category set to Issues*

##### #3 - 2011-02-14 16:23 - Nicholas Kulikov

+1 Agree! :)

##### #4 - 2011-02-15 06:37 - Jean-Baptiste Barth

Agreed. Do you think we should add an "Edit" button with a pencil next to the "Quote" one ? Any other suggestion ?

##### #5 - 2011-02-15 19:08 - Kate Ericson

Sure, adding an "Edit" pencil next to the "Quote" one would be good. Another option might be to split the main "Update" link into "Edit" and "Add

note", where Edit lets you change everything and "Add note" just appends content from a single field.

This would be nice. Please add the feature as suggested by Kate.

+1 All my coworkers are asking for this fix. Hope to see it in the next release

+1

This is the most frequent whining of users here: "I can't change issue details". Will probably record "Look better for More" to mp3 and play in loop on speakers.
