| Description | |
| <p>When adding issues to versions I expected the due date of the issue to match the due date of the version.</p> <p>Here are some behaviors I thought would be nice:</p> <ul style="list-style-type: none">- If an issue without a due date is added to a version with a due date it gets that due date- If a due date is changed on a version prompt to 'standardize' this due date for the rest of the issues- If an issue due date is changed to after the version due date a warning is thrown(?) <p>I was expecting similar interactions with due dates as related tickets have with percent done.</p> | |
