## Redmine - Defect #7705

# "Jump to project" combo box box spills out of screen

2011-02-24 10:49 - Benjamin Baroukh

Status: Closed Start date: 2011-02-24 **Priority:** Normal Due date: Assignee: % Done: 0% Category: UI **Estimated time:** 0.00 hour Target version: Resolution: Invalid Affected version: 0.9.1

## **Description**

The "Jump to project" combo box currently unfolds toward the top of the page. I guess this was to keep the rest of the UI visible. However, when you have many projects, it "spills" above the edge of the screen and no scroll-bar appears.

I guess there is two options:

- Either the combo box should unfold to the bottom
- Either a scroll-bar should appear.

Should be a quick fix anyway. Using Firefox 3.6.13.

#### History

### #1 - 2011-02-24 13:35 - Felix Schäfer

That's a standard select box and is taken care of by your browser/OS, I don't think there's anything redmine can do about it.

#### #2 - 2011-02-24 13:41 - Benjamin Baroukh

Indeed, my apologies, I had so memories of being able to decide which side the combo box should unfold to. I checked in Firebug and all seems right. Moreover the combo unfolds to the bottom in Internet Explorer 8!

So probably a Firefox bug then... Can anyone reproduce this issue in Firefox?

### #3 - 2011-02-24 13:45 - Benjamin Baroukh

Very interesting indeed!

It seems to be happening only when Firefox is on my secondary screen. Everything seems OK when Firefox is on my main screen... I will raise a bug on the Firefox side.

- Status changed from New to Resolved

Linked to bug in Firefox with multiple monitors not aligned: <a href="https://bugzilla.mozilla.org/show\_bug.cgi?id=393185">https://bugzilla.mozilla.org/show\_bug.cgi?id=393185</a>

### #5 - 2011-02-24 14:35 - Felix Schäfer

- Status changed from Resolved to Closed
- Resolution set to Invalid

OK, closing as this is not a redmine problem, thanks for double-checking :-)
