- Status changed from New to Closed

- Resolution set to Invalid

Please right in English here (see SubmittingBugs).

Moreover, you should post your question in the Help forum.

#2 - 2011-02-28 13:11 - Paco Hijano

Dear Mr Massip,

Thank you for your mail. Please, accept my apologies for this misunderstanding.

The program does not allow me to include any project. I would really appreciate to have an available access to Redmine again. Is there any chance?

Thank you for your attention.

Kind regards

Not sure I understand well the question : you don't access to Redmine or you don't have permission to create a project ?

In first case, try using port 3000 ?

Dear Mr Massip,
I don't have permission to create a project.
Kind regards

Ask your Redmine administrator ?

If you are the administrator, you should be able to create a project as soon as you are logged in.
