Category:	Projects	Estimated time:	0.00 hour
Target version:			
Description In revision 1055, i think you forgot the following : When doing a bulk edit on issues of a subproject, you can't assign a fixed_version of the parent project. To do that, you should replace in /app/views/issues/bulk_edit.rhtml @project.versions by : @project.assignable_versions			
Related issues: Is duplicate of Redmine - Feature #465: Inheritance of Versions to Subprojects Closed			

History

#1 - 2009-11-19 12:15 - Mischa The Evil

- Status changed from New to Closed

Closed since this will be obsoleted by implementation of issue [#465](#).
