### #3 - 2008-03-06 18:02 - Jean-Philippe Lang

Do you specify a username/password on the LDAP setup screen or do you read it anonymously ?

### #4 - 2008-03-06 18:09 - Sergej Jegorov

We use user/pass on the AD Domain controller (no anonymous). We don't use LDAPS, and "Test connection" link Show successful message.
