

Redmine - Defect #7969

Redmine doesn't work with sqlite3-ruby 1.3.3

2011-03-23 14:23 - Daniel Bond

<b>Status:</b>	Closed	<b>Start date:</b>	2011-03-23

<b>Target version:</b>		<b>Affected version:</b>	
<b>Resolution:</b>	Cant reproduce		
<b>Description</b>			
<p>I'm moving redmine (1.0.1) to a new server (ruby 1.8.7), when I installed sqlite3-ruby 1.3.3 on the new machine, redmine doesn't work correctly:</p> <p>ArgumentError (comparison of Time with String failed): app/models/setting.rb:152:in `&lt;=' app/models/setting.rb:152:in `check_cache' app/controllers/application_controller.rb:55:in `user_setup' /usr/lib/ruby/1.8/webrick/httpserver.rb:104:in `service' /usr/lib/ruby/1.8/webrick/httpserver.rb:65:in `run' /usr/lib/ruby/1.8/webrick/server.rb:173:in `start_thread' /usr/lib/ruby/1.8/webrick/server.rb:162:in `start' /usr/lib/ruby/1.8/webrick/server.rb:162:in `start_thread' /usr/lib/ruby/1.8/webrick/server.rb:95:in `start' /usr/lib/ruby/1.8/webrick/server.rb:92:in `each' /usr/lib/ruby/1.8/webrick/server.rb:92:in `start' /usr/lib/ruby/1.8/webrick/server.rb:23:in `start' /usr/lib/ruby/1.8/webrick/server.rb:82:in `start'</p> <p>the problem occurs because with sqlite3-ruby 1.3.3, "settings_updated_on = Setting.maximum(:updated_on)" is a String.</p> <p>I installed sqlite3-ruby 1.2.4 and it worked fine again.</p> <p>If this is a issue with sqlite3-ruby rather than redmine, I'd not be surprised, but I would imagine other users might face the same issue, and in that case might be worth noting somewhere.</p>

History

#1 - 2011-03-23 14:53 - Etienne Massip

- Category set to Database

#2 - 2011-04-03 18:26 - Jean-Philippe Lang

- Resolution set to Cant reproduce

I actually run tests with sqlite3 1.3.3 x86-mingw32 and don't have this issue.

```
>> Setting.maximum(:updated_on)
=> Sun Apr 03 18:25:29 +0200 2011
>> Setting.maximum(:updated_on).class
=> Time
```

#3 - 2011-07-24 16:29 - Yuya Nishihara

the problem occurs because with sqlite3-ruby 1.3.3, "settings\_updated\_on = Setting.maximum(:updated\_on)" is a String.

Do you have some incompatible plugins installed, by any chance? In my case, `stuff_to_do_plugin` produces this problem.

Try `rake db:schema:dump` to see if `db/schema.rb` gets broken. If it contains "Could not dump table ... because of following StandardError", remove suspected plugins until `db/schema.rb` becomes correct.

#### **#4 - 2011-07-27 11:24 - Daniel Bond**

Do you have some incompatible plugins installed, by any chance? In my case, `stuff_to_do_plugin` produces this problem.

You are probably right. I did have the `stuff_to_do_plugin` installed, and that may well have been the root of the cause.

#### **#5 - 2015-04-06 14:31 - Go MAEDA**

*- Status changed from New to Closed*

Caused by a plugin, closing this issue.
