Target version:				
Resolution:	Invalid			

Description

When creating counts, enable drop down menus for chosen "Group by" options. In the attached spreadsheet, the Group by values are on the top of the tier. The values beneath them (example: under Hotline - 1 Week HL, 1 Month HL...) are to be linked together.

The ID column next to every entry is the ID number in Milio system.

Creating a new count (how the final product should work): Selecting "Group by" options -> when entering the values on the next screen, besides manual entry a drop dowm menu appear (see attached pdf for visual explanation).

History

#1 - 2011-04-03 18:16 - Jean-Philippe Lang

- Status changed from New to Closed

- Resolution set to Invalid

Not the right tracker.
