

Redmine - Defect #8049

Git: fetch_changesets not updating project's repository

2011-04-02 01:04 - Yang Zhang

Status:	Closed	Start date:	2011-04-02
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	SCM	Estimated time:	0.00 hour
Target version:		Affected version:	
Resolution:	Duplicate		
Description rake -f ../../redmine/Rakefile redmine:fetch_changesets RAILS_ENV=production no longer seems to be working on my project's git repo. The last known commit was from 22d ago. Running the rake job produces no output (besides (in /root). How do I get to the bottom of this?

History

#1 - 2011-04-02 02:47 - Toshi MARUYAMA

- Status changed from New to Closed
- Resolution set to Duplicate

Duplicate of [#7146](#).

#2 - 2011-04-02 02:48 - Toshi MARUYAMA

- Category set to SCM

#3 - 2011-04-02 02:49 - Yang Zhang

- Status changed from Closed to Reopened

Toshi, we don't have any non-master branches - are you sure this is a duplicate?

#4 - 2011-04-02 02:56 - Toshi MARUYAMA

- Status changed from Reopened to Closed

Yes. You need to use bare repository.

#5 - 2011-04-02 02:57 - Yang Zhang

Um, it **is** a bare repo:

```
$ ls /var/git/sales.git/
branches/  description  hooks/      objects/    packed-refs
config     HEAD         info/       ORIG_HEAD  refs/
```

#6 - 2011-04-02 02:58 - Yang Zhang

- Status changed from Closed to Reopened

#7 - 2011-04-02 03:03 - Toshi MARUYAMA

- Subject changed from fetch_changesets not updating project's repository to Git: fetch_changesets not updating project's repository

#8 - 2011-04-02 03:06 - Toshi MARUYAMA

- Status changed from Reopened to Closed

Redmine runs "git branch" at source.tags/1.1.2/lib/redmine/scm/adapters/git_adapter.rb#L38 .

#9 - 2011-04-02 03:14 - Yang Zhang

- Status changed from Closed to Reopened

Toshi, we are using 1.0.5 (we cannot upgrade), and the code is the same: source.tags/1.0.5/lib/redmine/scm/adapters/git_adapter.rb#L38.

As I mentioned, we have no non-master branches:

```
$ git branch
* master
```

Also, our problem hasn't been resolved - why are you repeatedly closing this ticket?

#10 - 2011-04-02 03:21 - Toshi MARUYAMA

```
> $ git branch
> * master
>
```

It means you don't have branches except master.
You need to push other branches to your bare repository.

```
$ git push origin branch:branch
```

#11 - 2011-04-02 03:21 - Toshi MARUYAMA

- Status changed from Reopened to Closed

#12 - 2011-04-02 03:37 - Toshi MARUYAMA

- Resolution changed from Duplicate to Invalid

#13 - 2011-04-02 20:33 - Yang Zhang

- Status changed from Closed to Reopened

Toshi, that doesn't work - see below, Redmine's still not updating properly. Why do you keep marking this closed? And why is this marked Invalid?

```
$ git branch testing
```

```
$ git branch
* master
testing
```

#14 - 2011-04-03 00:56 - Toshi MARUYAMA

- Status changed from Reopened to Closed

This is redmine issue tracker.
You should use redmine forum.

#15 - 2011-04-03 01:00 - Toshi MARUYAMA

Try "git log --all" or "gitk --all" on your bare repository.

#16 - 2011-04-03 01:11 - Toshi MARUYAMA

- Resolution changed from Invalid to Duplicate

#17 - 2011-04-03 01:14 - Toshi MARUYAMA

Your description "The last known commit was from 22d ago" means known 7 days problem.
If you still have problem, you should not post to this issue, you should post to [#7146](#).

#18 - 2011-04-03 02:50 - Yang Zhang

git log --all shows our most recent commits just fine (from yesterday).

Yes, I mentioned "22d ago" and the other ticket is titled "before 7 days," but that doesn't imply it's the same problem.

I've moved this to the forum: <http://www.redmine.org/boards/2/topics/23033>

I have changed [#7146](#) title.
