Redmine - Defect #8057

Some fields should be shown LTR even in RTL locales

2011-04-04 13:55 - Ebrahim Mohammadi

Status:	Closed		**Start date:**	2011-04-04
Priority:	Normal		**Due date:**	
Assignee:	Azamat Hackimov		**% Done:**	0%
Category:	UI		**Estimated time:**	0.00 hour
Target version:				
Resolution:	Invalid		**Affected version:**	1.1.2

Description

Some parts of pages (specially some form fields) should be shown as left-to-right (LTR) even in right-to-left (RTL) locales.

Some important fields which should always be shown as LTR everywhere are:

- Email address (line edit)
- URL (line edit)
- Host name (line edit)
- Username (line edit)
- Password (line edit)
- Language (selection list)
- Time zone (selection list)
- Editor (selection list in admin settings)
- Encoding (selection list in repository settings)
- All numerical fields (examples: issue id of parent, estimated hours, activity hours, % Done, maximum file sizes, ...)

There may be other always-LTR fields. But finding all of them is an exhaustive task which I haven't done yet.

History

#1 - 2011-04-04 13:58 - Ebrahim Mohammadi

This is exact duplicate of #8056, so delete it please.
It happened because I got error 500 after first submit and resubmitted it. I got error 500 again. Then I found out the issue was created twice despite the error messages.

#2 - 2011-04-04 14:05 - Etienne Massip

- Status changed from New to Closed

- Resolution set to Invalid
