

## Redmine - Patch #8109

### Support for global permissions in acts\_as\_attachable

2011-04-08 23:09 - Andriy Lesyuk

#### Description

If an attachment is to be shown (e.g. an image) outside a project, view\_permission option does not work:

```
acts_as_attachable :view_permission => :view_attachments
```

This happens because acts\_as\_attachable supports only project permissions. The attached patch adds support for global permissions as well...
