Target version:	
Description	
Hi,	
I've noticed that in trunk now we can use rubygems 1.5 and rails 2.3.11 so I made a patch for adding bundler support.	
The dependencies are loaded from Gemfile and can be customized using Gemfile.local.rb	
The patch is based on trunk r5414

Duplicates Redmine - Feature # 5638: Use Bundler (Gemfile) for gem management	Closed 2010-06-02

History

#1 - 2011-04-11 20:59 - Alessio Caiazza

- File *bundler.diff* added

The previous patch was editing also `.hgignore` wich is not present on svn but only on the hg mirror.

#2 - 2011-04-11 22:59 - Etienne Massip

There is already a patch for bundler support, see #5638.

#3 - 2011-04-11 23:03 - Alessio Caiazza

Ahh, the *magic* "Next" link on the bottom of the search results page...

#4 - 2011-04-12 09:25 - Etienne Massip

- Status changed from *New* to *Closed*

Sorry, I close this one as duplicate of #5638 as patches are very similar.

#5 - 2011-05-27 16:53 - Etienne Massip

- Target version set to Candidate for next major release

#6 - 2011-05-27 16:54 - Etienne Massip

- Target version deleted (Candidate for next major release)
