#### Associated revisions

##### Revision 5602 - 2011-04-29 15:27 - Jean-Philippe Lang

Fixed: notes are lost when copying issue(s) (#6901, #8239).

#### History

##### #1 - 2011-04-28 13:47 - Etienne Massip

- Target version set to Candidate for next minor release

Confirmed with demo site, I'll try to investigate further.

##### #2 - 2011-04-29 15:41 - Etienne Massip

Had a quick look yesterday evening, Issue#new.copy\_from does not copy current journal.

Maybe that call to Issue#init\_journal in IssueMovesController should be moved to model after call to #copy\_from and only for a move action (do we really need a journal entry in a copy context if no notes are filled in) ?

##### #3 - 2011-04-29 19:36 - Etienne Massip

This change prevents double #save :

#### #4 - 2011-05-03 20:03 - johann sebatian

- Assignee set to johann sebatian

#### #5 - 2011-05-23 18:14 - Etienne Massip

- Assignee deleted (johann sebatian)

- Target version changed from Candidate for next minor release to 1.2.0

#### #6 - 2011-05-23 19:06 - Etienne Massip

- File issue\_copy.patch added

Less intrusive based on trunk ?

#### #7 - 2011-05-29 09:23 - Jean-Philippe Lang

- Status changed from New to Closed

- Resolution set to Fixed

This was fixed in r5602. Anything wrong with it?
