Description	
Hello. I'm one of the Gentoo sysadmins. We are considering of migrating from Trac to Redmine for our SVN/Git repositories. The following patch adds a functionality that is already available in Trac (browsing between changesets)

Looks good. Can I add this to repository?

No.

@changeset.previous, @changeset.next and :size => 8 are hardcoded.

And, there is no functional test.

#6 - 2017-07-30 07:09 - Go MAEDA

- File RepositoriesController-revision@2x.png added

- File RepositoriesController-diff@2x.png added

- Tracker changed from Patch to Feature

Because of the improvement made in r16911, we can switch between RepositoriesController#revision page and RepositoriesController#diff page with

tabs. So both pages are look like same page. However, RepositoriesController#diff page does not have Prev/Next navigation.

I think it is very natural for RepositoriesController#diff page to have prev/next navigation.

"Changes" tab (RepositoriesController#revision):

RepositoriesController-revision@2x.png

"View differences" tab (RepositoriesController#diff):

RepositoriesController-diff@2x.png

#7 - 2017-07-30 07:11 - Go MAEDA

- Related to Feature #26576: Use tabs to switch between file changes and diff of a commit added

#8 - 2019-02-03 12:29 - Go MAEDA

- Duplicates Defect #29730: Previous/Next link on repository page disappear when switching to "View differences" tab added

#9 - 2019-02-03 12:30 - Go MAEDA

- Status changed from New to Closed

- Resolution set to Duplicate

Implemented by #29730 for Redmine 4.0.0.
