

Redmine - Feature #8299

Add "vote for this issue" button on issues

2011-05-05 11:02 - Giovanni Spagnolo

| Resolution: Duplicate | |
| Description | |
| It should be possible to enable/disable a "vote for this issue" feature per issue trackers, so for example the "Features" tracker could enable users to give +1 to issues they want to see next, and then make a report to get the "most wanted" features. Jira has a similar feature. | |

History

#1 - 2011-05-06 15:34 - Terence Mill

Have a look for the [Vote Plugin](#)

At the moment can't be enabled or disabled per tracker, but voting and counting works.

#2 - 2011-05-31 15:11 - Etienne Massip

- Status changed from New to Closed
- Resolution set to Duplicate

Closed as duplicate of #1011, itself resolved by the Vote plugin.

#3 - 2012-07-13 04:08 - Jonathan East

+1 for activating this feature on redmine.org

#4 - 2012-07-13 16:54 - Terence Mill

I forked and added the module to enable/disable feature, also several rights for showing voters or not, or multiple votes per user.

At the moment it works for redmine 1.3, soon for redmine 1.4 (routes.rb missing)
