

Redmine - Defect #8346

Git: Previous and Next links are confusing

2011-05-12 09:43 - Be Fio

Status:	Closed	Start date:	2011-05-12
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	SCM	Estimated time:	0.00 hour
Target version:		Affected version:	0.9.0
Resolution:	Duplicate		
Description			
<p>On the repository tab, using Git as the SCM, I clicked Previous and Next, and found out that previous went to the newer commits, and Next went to the older commits. I don't know if this is the case for other SCM's, but this was really confusing to me. I'm sure it can/will be to others as well.</p>
