Description It would be nice, if there could be an additional way to create new wiki pages from a link besides the "edit", "watch", "history" links at the top of an exiting page. After following this "new page"-link, there should be a form asking for: <ul style="list-style-type: none">• the name of the new page (required)• the name of the parent (optional) This is also related to issue #6449 .
