<b>Description</b>			
As you can see on this screenshot, special characters like ä, ö, ü and ß within comments are only showed as '?'.  This is a Bazaar branch, and there aren't any problems with characters if I look directly in the branch's log with "bzd log", so this problem occurs obviously after Redmine got the info from bzd.  I'm running Debian Squeeze (32 bit) and Redmine 1.0.5 (from squeeze-backports) with MySQL server 5.1.49, Ruby 1.8.7.302-2, Rails 2.3.5 and bzd 2.3.1.

"bzd log" depends on your locale.

Check your locale and set encoding in your setting.

1.1 is in administrator panel.

1.2 is in repository setting.

#### #3 - 2011-05-18 09:11 - André Bachmann

My system locale is de\_DE.UTF-8, and my 'Commit messages encoding' in Settings, Repositories is set to UTF-8. So is this not correct?

#### #4 - 2011-05-18 09:18 - Toshi MARUYAMA

Check your MySQL encoding.

MySQL default encoding is Latin-1.

<http://www.redmine.org/issues/61#note-97>

Redmine forks "bzd log". So, check your redmine process locale (LANG environment variable).

#### #5 - 2011-05-18 09:20 - Toshi MARUYAMA

- Resolution changed from Invalid to Duplicate
