

Redmine - Defect #8543

Need to upgrade other packages

2011-06-06 14:32 - Dave Abrahams

Status:	Closed	Start date:	2011-06-06
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	l18n	Estimated time:	0.00 hour
Target version:		Affected version:	
Resolution:	Invalid		
<b>Description</b> Upgrade instructions tell me to check requirements in step 1. The link sends me to a page that says "Official releases include the appropriate Rails version in their vendor directory. So no particular action is needed." I am upgrading to an official release, so I don't take any particular action. However:  <pre>root@bite:/srv/redmine.new# rake db:migrate RAILS_ENV=production (in /srv/redmine.new) rake aborted! RubyGem version error: rack(1.0.1 not ~&gt; 1.1.0)  (See full trace by running task with --trace) root@bite:/srv/redmine.new# gem install -v=1.1.0 rack Successfully installed rack-1.1.0 1 gem installed Installing ri documentation for rack-1.1.0... Installing RDoc documentation for rack-1.1.0... root@bite:/srv/redmine.new# rake db:migrate RAILS_ENV=production (in /srv/redmine.new) rake aborted! undefined method `deep_symbolize_keys' for "����������\344\272\244":String  (See full trace by running task with --trace) root@bite:/srv/redmine.new# rake db:migrate:upgrade_plugin_migrations RAILS_ENV=production (in /srv/redmine.new) rake aborted! undefined method `deep_symbolize_keys' for "����������\344\272\244":String  (See full trace by running task with --trace)</pre>

- Category set to l18n

Looks like a translation issue, give a quick look at [#7191](#), maybe is there some change you can make to locale file to fix it ?

I haven't the foggiest idea how to begin doing what you suggest.

Oops, sorry about that. I missed the reference to [#7191](#). I think I may have already tried (and succeeded) at that. I did eventually get the upgrade finished.

**#6 - 2011-06-10 13:07 - Dave Abrahams**

But, to be clear, this is still an issue because it still complained that I had to upgrade rack after the instructions said I wouldn't have to worry about it.

**#7 - 2011-09-27 14:35 - Etienne Massip**

- *Status changed from New to Closed*

- *Resolution set to Invalid*

Updated the [RedmineInstall](#) page.
