Redmine - Defect #8554

Translation missing error on custom field validation

2011-06-07 15:11 - Pierre Pretorius

Status:	Closed		**Start date:**	2011-06-07
Priority:	Low		**Due date:**	
Assignee:	Jean-Baptiste Barth		**% Done:**	100%
Category:	Issues		**Estimated time:**	2.00 hours
Target version:	1.2.1			
Resolution:	Fixed		**Affected version:**	1.2.0

Description

When going to the project "issues" page, I add a filter on my "Patch name" custom field that is a normal text box. I set the filter to "is" and leave the input box blank. When clicking apply, instead of providing a message such as "Patch name can't be blank" it throws a big red box that displays: "Translation field_Patch name can't be blank." Please see attached screen shot. I had this problem with 1.1.0 and it's still there with 1.2.0.

Redmine is awesome!!! Keep up the good work :)

Associated revisions

Revision 6126 - 2011-06-27 03:03 - Jean-Baptiste Barth

Fixed: queries error messages about custom fields output a 'translation missing' error (#8554).

History

#1 - 2011-06-27 03:04 - Jean-Baptiste Barth

- Status changed from New to Resolved

- Assignee set to Jean-Baptiste Barth

- Target version set to 1.2.1

- % Done changed from 0 to 100

- Resolution set to Fixed

I pushed a workaround in r6126. Maybe it's not the best solution, we'll see if we merge it or if we find a better solution before 1.2.1 release. Thanks for reporting, and thanks for the kind words :)

#2 - 2011-06-27 17:05 - Etienne Massip

It does the job very well.

#3 - 2011-07-02 19:43 - Jean-Philippe Lang

- Status changed from Resolved to Closed

Merged in 1.2-stable, thanks.
