After upgrading redmine to 1.2 (following the recommended upgrade procedure), whenever I right-click an issue I get the following output from mongrel:

Could you please :

- try without these plugins ?
- post your app/controllers/context_menus_controller.rb file ?

#4 - 2011-06-11 01:15 - Nicolas Connault

- File context_menus_controller.rb added

- Assignee set to Etienne Massip

Etienne, thanks for your suggestions. I uninstalled all the plugins. The only plugin that made a difference was codebook (http://www.redmine.org/projects/redmine/wiki/PluginCodeBook). This plugin is NOT compatible with Redmine 1.2. As soon as I uninstalled it, the context menus worked again.

Ok, thanks, that must be a comparable issue for Yaroslav.
