

Redmine - Feature #867

Want more wiki link types

Resolution: Fixed	

Description

I'm used to using these on Trac and am missing all of them in Redmine:

source: -- link to repository home page
source:/trunk/foo -- link to file at current version
source:/blah/bar.txt@1234 -- link to file or dir at given rev
-- add #L25 to any of the above to go to specific line

Trac didn't have these, but they would make a lot of sense in Redmine:

files: -- Downloads home page
files:foo-1.3.5.tar.gz -- Download named file
files:foo.tar.gz@15 -- Download named file at given version
forums: -- Main forums page.
-- Should also have a way to link to
-- a particular forum, thread, or post.

Also, links into the roadmap, activity, overview, and overall projects page would be useful.

Currently all of the above I have to hardcode as URLs.

Associated revisions

Revision 1267 - 2008-03-17 18:45 - Jean-Philippe Lang

Add Redmine links for repository files using source: and export: keywords (#867).

History

#1 - 2008-03-17 18:50 - Jean-Philippe Lang

- % Done changed from 0 to 50

Links to repository files committed in r1267. Here are some examples:

source:some/file -- Link to the file located at /some/file in the project's repository
source:some/file@52 -- Link to the file's revision 52

source:some/file#L120 -- Link to line 120 of the file
source:some/file@52#L120 -- Link to line 120 of the file's revision 52
export:some/file -- Force the download of the file

Note that source: alone won't work.

#2 - 2008-03-18 14:37 - Jos Yule

Wow, those are great! I don't know when I'll use them, but I can see them coming in handy sometime.

#3 - 2008-07-08 18:44 - Paul Rivier

- Assignee set to *Jean-Philippe Lang*

I would prefer the link to point to the "changes" page rather than to the "entry" page. With interlinks, it makes more sense to me to land on a page describing the history of the file in the project rather than to download directly the file. WDYT ?

#4 - 2010-10-29 13:02 - Patrick Meidl

what would also be great is a link to the user profile as suggested in issue #1629, note 10.

#5 - 2011-08-22 14:14 - Etienne Massip

- Category set to *Text formatting*

#6 - 2013-03-17 05:44 - Mischa The Evil

- Status changed from *New* to *Closed*
- Assignee deleted (*Jean-Philippe Lang*)
- % Done changed from *50* to *0*
- Resolution set to *Fixed*

Please open a new issue for this if this is still wanted.

Repository links (source:/export:) are implemented. Files links and User profile links are still missing but they have their own issues (#2069 and #4179).
