Description	
<p>Hello,</p> <p>Is-it possible with Redmine to add hypertext links that points to local windows directories when creating redmine demand? Example :If we add a link to network directory (\\machine_test\tmp), it will not be clickable ?</p> <p>Thank you in advance.</p> <p>Best regards,</p> <p>Riadh</p>

- Status changed from New to Closed
- Resolution set to Invalid

Closed as you should post in forum ; BTW I think Redmine doesn't support file:// protocol (or UNC paths) for security reasons.

There is already an issue with a discussion about this security thing but I can't find it out anymore.

There is also #2084.
