I also have had this issue.

Steps to reproduce:

1. Go to the Redmine demo site with IE 6, 7, 8, or 9.
2. Go to any project that has multiple issues
3. Select an issue
4. Hold down the *Control* key and click additional issues.

Notice the subject text disappears.

clicking another issue (without holding control) to de-select the highlighted issues does not fix this. Refreshing the page obviously does.
