

Redmine - Defect #8931

Repository parsing content by application-server (.cfm)

2011-07-28 13:20 - Michael Diederich

| | | | |
|---|---------|--------------------------|------------|
| Status: | Closed | Start date: | 2011-07-28 |
| Priority: | Low | Due date: | |
| Assignee: | | % Done: | 0% |
| Category: | SCM | Estimated time: | 0.00 hour |
| Target version: | | Affected version: | 1.2.1 |
| Resolution: | Invalid | | |
| Description | | | |
| <p>When I access the repository, I can view .html and .txt files. But when I want to see .cfm files, they are parsed by the coldfusion server (due to the file ending) and I get an error. It should be handled the same way you handle files like php.</p> | | | |

#1 - 2011-07-30 10:51 - Jean-Philippe Lang

- Status changed from New to Closed
- Resolution set to Invalid

It should be handled the same way you handle files like php.

Redmine does not handle php files in any particular way. This is a web server configuration issue.
