Target version:	
Resolution: Duplicate	
Description	
<p>This issue concerns the e-mail headers and footers configuration in http://redmine.mycompany.com/settings/edit?tab=notifications.</p> <p>We can enter formatting of the texts (bold, italic, code etc), but only inline.</p> <p>It would be nice if the edit controls become rich-edit controls like issues' and comments' edit controls (with formatting buttons B, I, U ..., H1 ...).</p>
