

Redmine - Defect #8973

long git loop after upgrade to 1.2.1

2011-08-02 17:59 - Eugene Elementoff

Status:	Closed	Start date:	2011-08-02
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	SCM	Estimated time:	0.00 hour
Target version:		Affected version:	1.2.1
Resolution:	Duplicate		

Description

After upgrading to redmine version 1.2.1 from 1.1.3
opening projects with git repositories configured results in nginx error "gateway timeout",
and in a lot of messages in redmine log:

```
Resolving deltas: 100% (755/755), done.  
remote: Counting objects: 2109, done.  
remote: Compressing objects: 100% (2107/2107), done.  
Receiving objects: 100% (2109/2109), 262.96 KiB, done.  
remote: Total 2109 (delta 755), reused 3 (delta 0)

Resolving deltas: 100% (755/755), done.  
remote: Counting objects: 2109, done.  
...
```

output of them can long several minutes during first request to browse repo.
In small repositories with few files and commits - it works fine, but in others repos - hangs.

- Status changed from New to Closed
- Resolution set to Duplicate

This is intended behavior.
Please see #8857.

- Status changed from Closed to Reopened

I confirm this bug, and it cannot possibly be the intended behavior: On our installation git "looped" (it the checkout of gitosis-admin.git which loops!) for nearly 2 days before I got fed up and killed it. I had to uninstall the gitosis plugin in order to get fetch_changesets to work altogether. For more information, please see <http://www.redmine.org/boards/2/topics/25785> and my posts in #8857.

#3 - 2011-08-26 09:20 - Etienne Massip

Well, seems to be a gitosis plugin issue then?
