

Redmine - Defect #8976

Timelog reports date incorrect

2011-08-03 12:08 - Dennis Meissner

Status:	Closed	Start date:	2011-08-03
Priority:	Normal	Due date:	
Assignee:		% Done:	100%
Category:		Estimated time:	0.00 hour
Target version:		Affected version:	
Resolution:	Invalid		
Description Database: MySql (5.0.82) Ruby: ruby 1.8.7 (2009-06-12 patchlevel 174) [universal-darwin10.0] Rails: rails 2.3.11 Redmine: 1.2.1.devel.6393 I noticed some problems with the Timelog report system. When trying to display spent time for a date range, the date columns always have the same date (see screenshot) Output from production logfile: <pre>Processing TimeEntryReportsController#report (for 172.16.1.181 at 2011-08-03 12:03:39) [GET] Parameters: {"criterias"=>["member"], "from"=>"2011-07-01", "action"=>"report", "to"=>"2011-07-31", "period_type"=>"2", "controller"=>"time_entry_reports", "columns"=>"day"} Rendering template within layouts/base Rendering time_entry_reports/report Completed in 178ms (View: 84, DB: 2) 200 OK [http://mobile.bb-k.net/time_entries/report?period_type=2&from=2011-07-01&to=2011-07-31&columns=day&criterias%5B%5D=member]</pre> If i restart the Server this bug is gone until someone logs time on an issue. After logging time -> same output as screenshot shows. Plugins: - Redmine Backlogs - Redmine Light Box plugin - Timesheet Plugin			

History

#1 - 2011-11-03 16:47 - Fabio Da Soghe

It's the same for us: it's nearly impossible to get useful data from such a report.

It's a great shame: we use Redmine to sum up the total hours worked every month, and in this state it cannot generate reports, we have to (painfully) get our totals in another way...

Is anyone working on this issue?

#2 - 2011-11-03 16:47 - Fabio Da Soghe

It's the same for us: it's nearly impossible to get useful data from such a report.

It's a great shame: we use Redmine to sum up the total hours worked every month, and in this state it cannot generate reports, we have to (painfully) get our totals in another way...

Is anyone working on this issue?

#3 - 2011-11-07 23:10 - Mischa The Evil

Seems that both users experiencing this issue are using the Redmine Backlogs plugin. Dennis mentioned it in this issue's description and Fabio mentioned it in [RE: Timelog report broken: nobody uses it?](#).

I am not able to reproduce the described behavior on a current vanilla Redmine trunk myself. This is the same for *Sanjay jain* who also is not able to reproduce it (mentioned in [RE: Timelog report broken: nobody uses it?](#)).

This suggests that it's an issue caused by the respectively used versions of the Redmine Backlogs plugin. I'd say you test this without the suspected plugin(s) and if it's solved you should contact the plugin author about the issue(s) you're experiencing with the plugin.

#4 - 2011-11-09 17:38 - Fabio Da Soghe

We updated Backlogs plugin to the latest tag (v0.6.19) and this issue seems corrected. That is: it's working and we are not able anymore to reproduce the problem.

#5 - 2011-11-10 18:11 - Mischa The Evil

[Fabio Napoleoni](#) Da Soghe: thanks for your feedback on this...

[Dennis Møllegaard Pedersen](#) Meissner: can you verify if updating the Backlogs plugin solves your issue too?

#6 - 2011-11-15 11:07 - Dennis Meissner

- *Status changed from New to Resolved*
- *% Done changed from 0 to 100*

Updating Redmine Backlogs solved the problem.
Timelog reports are working again.
Thanks to all.

#7 - 2011-11-15 11:32 - Etienne Massip

- *Status changed from Resolved to Closed*
- *Resolution set to Invalid*

Thanks for your feedback.
