

Redmine - Defect #8977

user doesn't show up in the author filter dropdown when querying for issues

2011-08-03 14:24 - Danny Navarro

Target version:		Affected version:	
Resolution:			
Description			
I tried this in the demo site:			
1. I registered a user (paco perez).			
2. I added a dummy issue to a random project (Test1).			
3. I went to http://demo.redmine.org/issues .			
4. I tried to filter by author but in the dropdown menu listing the authors my user is not there (paco perez).			
In a local installation I have, if I add some role to the user in a project, then the user shows up in the dropdown menu.
