Redmine - Patch #9066

Redmine.pm not working for merges/copy #3727

2011-08-16 10:59 - Andreas Reischuck

Status:	New		**Start date:**	2011-08-16
Priority:	Normal		**Due date:**	
Assignee:			**% Done:**	0%
Category:	SCM extra		**Estimated time:**	0.00 hour
Target version:				

Description

This issue seems related to the https-subrequests which will not contain the authentication credentials required to pass the authen_handler.

I added a line that works around this.
I guess if the main request was declined no user would get into a sub-request anyways. If that assumtion is wrong, additional checks that the main request was authenticated should be applied.
