

## Redmine - Defect #9227

### User with right "Issues created by or assigned to the user" can't see issues assigned them

2011-09-11 19:10 - Maurizio Romano

<b>Status:</b> New	<b>Start date:</b> 2011-09-11
<b>Priority:</b> High	<b>Due date:</b>
<b>Assignee:</b>	<b>% Done:</b> 0%
<b>Category:</b> Permissions and roles	<b>Estimated time:</b> 0.00 hour
<b>Target version:</b>	<b>Affected version:</b>
<b>Resolution:</b>	
<b>Description</b> In Redmine 1.2.1 dev, there are issues visibility setting in "Administration" -> "Roles and permissions" with three options. All issues All non private issues Issues created by or assigned to the user  Assume in a project we create a new role as "External users" and grant this role the issues visibility as "Issues created by or assigned to the user". The "external" user can't see issue assigned him but he's able to access it.  Defect#9199 is very similar issue but not the same
