<b>Description</b> I wrote some help to contribute back to the Redmine project, now at <a href="http://docs.redmigh.com/projects/docs/wiki">http://docs.redmigh.com/projects/docs/wiki</a>  If it can't be attached to the default help (which I'm guessing it can't because of security issues with the CSS), can it at least be linked from <a href="http://www.redmine.org/guide">http://www.redmine.org/guide</a> ?  Cheers, jh

Thanks for bringing this up again jon. It's already discussed at issue [#7284](#), thus I close this issue as *Duplicate*.

Note: I'll see what I can do for [#7284](#); I'll assign the issue to myself...
