Description

Now, start and due dates of an issue are hard. It doesn't allow to reschedule its project based on dependencies and durations.

I suggest to take the dates as soft ones (to allow their reschedule) unless checkboxes at field Start date and/or Due date are checked.

Sorry if I submitted a duplicated issue. It is very hard to search in those 2.000+ feature requests.

History

#1 - 2011-10-13 10:23 - Etienne Massip

- Category changed from *Projects* to *Issues*

#2 - 2011-10-13 14:00 - Etienne Massip

Did you know that dates were actually modified depending upon issue relations (see [RedmineIssues](#))?
