Redmine - Defect #9560

"Short" commit messages show textile formatting

2011-11-13 15:57 - Dan Clarke

Description

I do love the fact you can use textile formatting in commit messages, however when it shows a short version of the commit, it can mess up the textile formatting, see the screenshot below:
  Google Chrome.jpg

However in the bigger view it works fine:
  Google Chrome-1.jpg

It just might be worth looking at the length without textile and make sure it will fit in, if it doesn't just show the link, or let it flow until the end of the syntax?
