

Redmine - Defect #9588

Text fields used for data entry should trim whitespace.

2011-11-16 19:28 - Dave Carlton

Status: New	Start date: 2011-11-16
Priority: Normal	Due date:
Assignee:	% Done: 0%
Category: UI	Estimated time: 0.00 hour
Target version:	Affected version:
Resolution:	
Description	
For example, in the password recovery field for email address, if the address was copied and pasted with leading or trailing whitespace it should be trimmed off before use. Trying to send email to ` joe@blow.com ` will fail miserably without the user knowing.
