<b>Description</b> If files module is active you can assign files to versions. It would be nice to have a list of these files in an own box ("related files") similar as "related issues" shown in the version view, e.g. <a href="http://www.redmine.org/projects/redmine/versions/39">http://www.redmine.org/projects/redmine/versions/39</a>  Moreover an absolute count of related files in the roadmap per version would show the user, that there are documents available for this version.	
<b>Related issues:</b> Is duplicate of Redmine - Feature #2460: List files on version page <b>New</b> <b>2009-01-07</b>
