This is not the right place for support requests. They should be placed in the [forums](#) with some additional information as outlined in [submissions](#).

Hint: seems you are missing some database migrations. Execute rake db:migrate RAILS_ENV="production" to bring your migrations up-2-date.

#3 - 2011-11-22 18:53 - Mario Luzeiro

Thanks, it solved. sorry for the wrong submit.

I usually only do rake db:migrate:plugins RAILS_ENV="production" and it doesn't update everything.

#4 - 2011-11-22 23:13 - Mischa The Evil

The migration was added recently in [r7710](#) for [#5501](#).
