Redmine - Defect #9639

Bulk Edit/update fails with "Proxy Error"

2011-11-23 06:54 - Anonymous

Status:	Closed		**Start date:**	2011-11-23
Priority:	Normal		**Due date:**	
Assignee:			**% Done:**	0%
Category:			**Estimated time:**	0.00 hour
Target version:				
Resolution:	Invalid		**Affected version:**	1.2.1

Description

Redmine 1.2.1
Windows XP SP3

When I try to do a bulk update/edit (select all issues, right click, select Status, select Closed status), I get the following proxy error. This is regardless of how many issues I select, or whether I run off the local machine or a remote machine.

Proxy Error

The proxy server received an invalid response from an upstream server.
The proxy server could not handle the request POST /issues/bulk_edit.

Reason: Error reading from remote server

Apache/2.2.3 (CentOS) Server at northstarsupport.magnasoft.com Port 80

History

#1 - 2011-11-23 20:32 - Mischa The Evil

- Status changed from New to Closed

- Resolution set to Invalid

I think this is not an issue in Redmine core. Seems more like a support request to me.
This also isn't troubleshoot-able with the provided information (more specifically the used configuration and logs), see submissions.

Please post your issue and the required information to the forums.
