## Redmine - Feature #9790

# Allow filtering text custom fields on "is null" and "is not null"

2011-12-13 14:30 - Pierre Pretorius

Status:	Closed	Start date:		
Priority:	Normal	Due date:		
Assignee:	Jean-Philippe Lang	% Done:	0%	
Category:	Custom fields	Estimated time:	0.00 hour	
Target version:	1.4.2			
Resolution:	Fixed			
Description		•		

We have a custom field called "Test Case ID" that might be populated. We want to create a public custom query that shows all issues that have this field populated, in other words we want to query where Test Case ID is not null. If you set the filter to "is not" and leave the text box blank, it shows an error message that the text box must be entered. Please add "is not null" to the dropdown or allow the text box to be empty. This scenario is occurring more and more with a few different fields.

Thanks for the excelent work with Redmine!

#### #1 - 2012-04-25 09:37 - Pierre Pretorius

- Assignee set to Jean-Philippe Lang

I'm really sorry for assigning this to you, can you please evaluate this request and put it in as a candidate or throw it in your dustbin/will not implement status? Thank you.

#### #2 - 2012-05-12 14:25 - Jean-Philippe Lang

- Subject changed from Allow filtering fields on "is null" and "is not null" in issue queries to Allow filtering text custom fields on "is null" and "is not null"

- Status changed from New to Resolved

- Target version set to 1.4.2

#### Added in <u>r9671</u>.

#### #3 - 2012-05-12 14:42 - Jean-Philippe Lang

- Status changed from Resolved to Closed

- Resolution set to Fixed

Merged.

### #4 - 2019-01-19 09:06 - Go MAEDA

- Has duplicate Feature #4815: More criteria for filtering tickets added
