History

#1 - 2011-12-16 10:12 - Denny Schäfer

The error is in file **revision_graph.js** line 31. In my case var **cw** is every 40.

#2 - 2011-12-16 10:20 - Etienne Massip

- Category set to SCM

#3 - 2011-12-17 17:52 - Etienne Massip

- Status changed from New to Confirmed

- Target version set to Candidate for next minor release

#4 - 2011-12-20 14:24 - Alex Pogodin

Had the same effect until I refreshed my changesets. Try to remove and then readd the repo, worked for me

I did and the result was the same. Shouldn't it look like more of a revision graph and less of a bullet pointed list? (tested on Mac Chrome 17.0.963.12)

I expanded the X spacing in the JS and still get a similar thing.

That screenshot link is invalid. Screenshot is attached.

May be i will help. This bug is only for old commits (before redmine update). After update the branch graph is ok.

UPD. I wrong.

I can reproduce the behaviour quite easily. It seems that when there is not enough branches to increase the horizontal width the words are cut off.

Attached a fix that works fine for me. It changes the width dynamically if there's not enough room to draw the tag names. Against 1.3.2.

#10 - 2012-03-14 12:21 - Etienne Massip

BTW, the way the graph is integrated into the revision list has been changed with version:1.4.0.

We removed the head revision branch names since they will necessarily be cut off and display them on revision dot hover.

There is still room for improvements, though.

Yeah I know, but I needed a quick fix for the stable version, so I thought I share it :)

Thanks for patching this bug

It looks like that the defect go away (i can't reproduce it with the last 1.4 version). Could anyone close the ticket?

#14 - 2012-10-10 14:12 - Etienne Massip

- Status changed from Confirmed to Closed

Fixed when changed the way the visual tree is displayed for version:1.4.0.

#15 - 2012-10-10 14:12 - Etienne Massip

- Target version deleted (Candidate for next minor release)
